## We are a certified team

-  Salesforce Certified Professional
-  Microsoft Certified Professional
-  SAP Finance Certified Professional
-  Certified in Design and Creativity
-  GIS Experts

# SERVICES

## Salesforce ( CRM )

Providing CRM solution through salesforce.com cloud based application. A product software-as-solution i.e. saves infrastructure cost.

## Business Intelligence

Knowing more about your business and it's solutions faster than others, it is the best way to boost innovation and gain an edge on your competition

## Web Design & Development

Developing web applications with rich internet application and responsive layout. We build robust & scalable solutions based on MVC architecture also with custom frameworks.

## Creative Designing

Creating a concept is a big task which goes through various brain-storming, feedback phases most of the time. Designing not only product but anything on web or as a software.

## Other Services

-  e-Commerce Solutions
-  Open Source Solutions
-  Operations Automation
-  Human Resource Solution
